Dear Students,

On behalf of MTU, I am delighted to welcome you to our growing learning community.

As you begin your studies with us, you can be assured of our full support for you as an individual and unique student. We offer this support in a spirit of partnership and shared responsibility as you make your academic and social journey over the coming years.

Our Student Affairs and Services Support Teams are tasked with delivering the necessary assistance to allow you to pursue your specific academic programmes, career goals and personal ambitions. These teams are available to you from your very first day at MTU right through to your graduation.

The Academic Year passes very quickly. I would encourage you therefore, not to hesitate in asking for assistance or support during your time with us. Our support team can help with any questions you might have and are always happy to offer any guidance and advice you might need.

Similarly, I have every confidence that our Clubs, Societies and Student Leaders will assist you in getting involved and making new friends. Immersing yourself in student life, will help you find not just what you want to do, but who you want to become in the years ahead.

I would also encourage you to embrace the community in which we live. Get to know all the great social, historical and cultural amenities that the southwest has to offer, but equally be mindful and respectful of the residents and businesses that we are delighted to have as neighbours.

Our aim is to contribute to the holistic development of our MTU community, through nurturing a caring, respectful, and supportive environment, which embraces a diverse, equitable and dynamic culture.

# EDTECH @ MTU

MTU provides a state of the art digital learning ecosystem that is supported locally across our Cork campuses. The Department of Technology Enhanced Learning (TEL) manage this digital learning ecosystem and offer a range of related supports to students on the use of these systems. At the heart of our ecosystem is a modern Learning Management System (LMS) called “Canvas” and an integrated video conferencing platform called “Zoom”. TEL and EDSU also manage and provide a number of other online learning components, including a plagiarism detection system, attendance tools, and an e-portfolio systems which you may come across as part of your studies.

## Canvas

Canvas is a modern user-friendly Learning Management System which is integrated with the university’s student record system, meaning that every module is automatically given its own space on the platform, with student access being provided to these spaces based on the most up-to-date enrollment data. Canvas allows you as a student to access course materials, complete assignments and other assessments, access grades and feedback and communicate with your lecturers and fellow students. Canvas can be used on your desktop or laptop or by using the Canvas App on your smartphone or tablet. The Canvas App lets you keep track of course work and get up-to-date information on your modules and activities through push notifications.

## Zoom

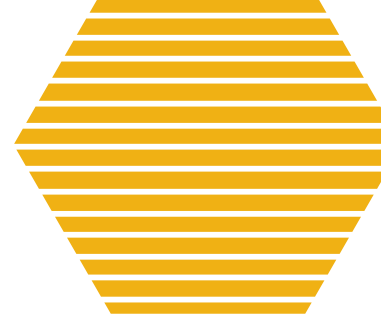

Zoom, when used, will allow you to participate in live online classes and other live learning events. The Zoom system is fully integrated into the Canvas Learning Management System, meaning you can access Zoom from inside Canvas itself. If Zoom recordings are made, these will also be accessible from inside Canvas. Zoom provides a wide range of features to support your learning including video conferencing, breakout sessions, desktop sharing, chat, and polling. There is also a Zoom app available for Android and iOS.

## Plagiarism Detection

Plagiarism detection systems use text-matching and writing style analysis to assess the originality of submitted texts. Like Zoom, these systems are integrated into Canvas and, if used by your lecturer, will appear as an added feature to any Canvas assignment submissions they ask you to make. In some cases, lecturers may also provide you with plagiarism analysis reports to help you to learn more about how academic writing and referencing works.

The TEL Department provides a range of additional supports and resources for students through their website: <https://tel.cit.ie/>

## Further Support for Students

The TEL Department has a mission to create new learning opportunities and to enrich the learning experience of all Cork campus students by providing world-class technology-enhanced learning solutions and services. In addition, TEL provides a flexible, inclusive learning environment to support students learning at a distance through MTU's fully online or blended programmes.

## Support for Using Canvas

All MTU Cork students have been enrolled on a special "Canvas student" course (<https://cit.instructure.com/courses/52759>) and a "student assessment guide" (<https://cit.instructure.com/courses/52596>) which provide lots of additional information about the platform via Canvas itself.

Instructure, the company behind Canvas, provides 24/7 support for all students via text, webchat and email. This is available through the help menu in Canvas: <https://cit.instructure.com/>

The TEL Department provides a knowledge base with regularly-updated help articles on Canvas, Zoom and other systems: <https://edtechstudents.eu.helpdocs.com/>

# MTU CORK STUDENTS' UNION

The Students' Union is the independent and democratic voice of students. There are three sabbatical/full-time officers including the President, the Vice President Education and the Vice President Welfare.

We represent students' views at a University level, on various committees including Governing Body and Academic Council. This is where real change can happen. If you have an issue or ideas for change, tell us! We want to hear your ideas, your concerns and your feedback. We also represent students on a national level through the Union of Students in Ireland (USI), which gives our students a voice on national issues including fees, grants, jobs & employability, accommodation, equality and protecting student rights.

We organise a full programme of social & well-being events throughout the academic year and provide a range of student friendly services.
